FOR IMMEDIATE RELEASE

PARSONS WINS STRATEGIC FAA CONTRACT

PASADENA, CA (August 27, 2012) – Parsons has been awarded a Technical Support Services Contract (TSSC) by the Federal Aviation Administration (FAA). Under the terms of the cost-plus-award-fee contract, Parsons will provide professional engineering, technical, and construction services in support of the FAA's mission to ensure aviation safety and uninterrupted air traffic throughout the National Airspace System (NAS). The NAS encompasses the United States and its territories and possessions. Services will include site surveys and selection; engineering; environmental; fire/life safety; equipment installation, removal, and testing; drafting; staging, warehousing, and distribution; and contract surveillance and oversight.

This TSSC is the fourth issued by the FAA and the second consecutive contract awarded to Parsons. Under the contract, Parsons will implement key projects to modernize the NAS and support the strategic transformation to the Next Generation Air Transportation System.

"Parsons is pleased to be given the opportunity to continue our work with the FAA," stated Todd Wager, Parsons Group President. "We look forward to providing the FAA with the essential services needed to meet the demands of its evolving operations."

Since 2001, Parsons has provided continuous support to the FAA. Parsons has successfully executed more than 3,000 work releases and supported projects at more than 4,000 geographically dispersed FAA facilities.

Parsons, celebrating more than 65 years of growth in the engineering, construction, technical, and professional services industries, is a leader in many diversified markets with
