Technical Webinar Series

2021 TECHNICAL WEBINAR SERIES

A Focus On Emerging Issues, Innovation, And The Intelligent Application Of Advanced Technologies

Presentation Description

Parsons is an innovative provider of environmental technologies and solutions, and we are pleased to offer these webinars presented by our industry-leading subject matter experts.

Presenter/Date	Topic
Jeff Hale, PG **January 20 at 12:30 PM EST**	Environmental Surveillance of Pathogens
Ranga Muthu, PE and Saroj Kandel, PhD **February 17th at 12:30 PM EST**	Universal Performance Assessment Metric: A New Approach to NAPL Remedy Strategies
Catherine Sheane, PE, LEED AP BD+C, ENV SP and Jessica Bennett, PE, CIH **March 17th at 12:30 PM EDT**	Energy and Climate Resilience for Environmental Remediation
Akshay Parenky, PhD **April 14th at 12:30 PM EDT**	Destruction of PFAS under Ambient Conditions
Ed Heyse, PhD, PE; Bruce Henry, PG, and Brian Blicker, PE **May 12th at 12:30 PM EDT**	Sulfate-Enhanced Bioremediation of Fuel Contamination at Former Galena FOL Alaska
Ajish Nambiar, PE, ENV SP, LEED AP **June 9th at 12:30 PM EDT**	Full-Scale Fenton's Chemistry Application Using Native Iron for the Destruction of 1,4-Dioxane in Recovered Groundwater
James Schuetz, PG and Melanie Beck **July 14th at 12:30 PM EDT**	Optimizing In Situ Complex Metals Remediation through Numerical Simulations
Dan Griffiths, PG **August 11th at 12:30 PM EDT**	An In-Situ and Ex-Situ Solution to PFAS Liabilities
Kristi Diller, PG and Jim Leu, PhD, PE, LEED AP, QSD, QSP **September 8th at 12:30 PM EDT**	In-Situ Chemical Reduction and Enhanced Bioremediation to Treat a Comingled TCE and Hexavalent Chrome Plume
Eleanor Jennings, PhD **October 13th at 12:30 PM EDT**	Novel Bioremediation of LNAPL at an Active Bulk Terminal
Justin King **November 10th at 12:30 PM EDT**	An Integrated and Holistic Approach to Restoring Chlorinated Solvent Sites in a Restrictive Environmental Setting
