

COVID-19 WORKPLACE SOLUTIONS

Ensuring Safety And Business Continuity

As the COVID-19 pandemic endures, businesses continue seeking solutions to help keep employees and customers safe, while meeting the new and evolving local, state, and federal guidance on vaccination, testing, and reporting obligations. Parsons' flexible, configurable DetectWise™ solution integrates disparate services needed for a comprehensive program – testing manufacturers, distributors, medical advisory, and reporting – into one platform.

Built with long-term scalability and sustainability in mind, DetectWise™ is a plug and play platform that allows for rapid integration of new technologies and NextGen diagnostic capabilities, with the ability to manage other known or emerging infectious diseases.

What can businesses do to protect employees?

How DetectWise™ capabilities can help

Determine the vaccination status of each employee	Vaccine self-attestation
Obtain acceptable proof of vaccination from vaccinated employees	Direct upload of vaccination card SmartHealth Card compatibility to recognize vaccination credential from other valid sources
Maintain records of each employee's vaccination status	Secure, HIPAA compliant cloud-based data storage
Maintain a roster of each employee's vaccination status	Organization-defined, automated workflow for rostering and tracking vaccination and testing status
Ensure that employees not fully vaccinated are tested for COVID-19 at least weekly	Integrated, At-Home and Point of Care EUA authorized COVID testing capabilities and result tracking
Require employees to promptly provide notice when they receive a positive COVID-19 test or are diagnosed with COVID-19	Near real-time test results notification (positive and negative) based on organization-defined workflow Supports required reporting to health authorities
Make identified records available to employees and their authorized representatives.	Secure web-based reporting and notifications capability

Parsons' DetectWise™ can provide regulation-compliant reporting at the click of a button.

- Workplaces covered under the Safer Federal Workforce Task Force COVID-19 Workplace Safety: Guidance for federal contractors and subcontractors; and
- Requirements of the Healthcare CMS ETS settings where all employees providing healthcare services or healthcare support services are subject to the requirements of the Healthcare ETS (§ 1910.502).

DetectWise™ Solutions

- Validate COVID-19 vaccination status
- Validate COVID-19 test results
- Proctoring/observation services for at-home testing
- Issue and verify credentials
- SMART® health card compatible
- Configurable self-attestation forms
- Smart technology compatible
- HIPAA compliant cloud-based storage
- Military grade encryption
- Real-time notifications and reporting
- Data analytics, risk management dashboard
- Web-based GeoAware technology
