

BUILD BACK SMARTER

The latest solutions to deliver complex environmental remediation and future-ready water and energy systems

Parsons is an industry leader in environmental and energy technologies and solutions, and we are pleased to offer these webinars presented by our industry-leading subject matter experts.

Presenter/Date	Presentation Topic
Hayden Avera, PE January 12 at 12:30 PM EST	Methods to Improve O&M Performance: Developing, Managing, and Optimizing an Operations Program for a Large-Scale Remediation Site
Les Cordone, PE and Ajish Nambiar, PE, ENV SP, LEED AP February 9 at 12:30 PM EST	Strategies and Technologies for Municipal and Industrial Water Recycling and Reuse
Tim Ultee March 9 at 12:30 PM EST	Innovative Drone Applications for Engineering and Environmental Projects
Dan Griffiths, PG and Kavitha Dasu, PhD April 13 at 12:30 PM EDT	A Technology-Driven Approach to Better PFAS Investigations – Brought to You by Parsons and Battelle
Julien Chambert May 11 at 12:30 PM EDT	Novel In-Situ Remediation of Arsenic Using Nitrate and Sulfate
Eleanor Jennings, PhD June 8 at 12:30 PM EDT	The Use of Cutting-Edge Molecular Microbial Technologies to Drive a Successful, Novel, Enhanced Bioremediation of Legacy Contaminants
Glenn Ulrich, PhD Tara Coulombe, and Ron Krawczyk July 13 at 12:30 PM EDT	Risk-Based and Biotechnology Alternatives to Address Natural Gas Emissions from Leaking Oil and Gas Wells and Other Methane Sources
Karen Leven August 10 at 12:30 PM EDT	Acid Rock Drainage Diversion Case Study: An Environmental and Water Quality Success Story
Mike Nahir, P.Eng. September 14 at 12:30 PM EDT	Risk Mitigation and Solutions for Mine Closure and Reclamation
Akshay Parenky, PhD October 12 at 12:30 PM EDT	Advances in PFAS Destroying Technologies: A Window into Parsons R&D Program
JR Richard, MBA, PMP November 9 at 12:30 PM EST	Grid Modernization: Opportunities, Obstacles, and Solutions

Presentation abstracts and log-in details will be advertised approximately one month prior to each webinar.
