# CASO II

## CASO Recertification: Making The Intangible, Tangible

## Course Overview

The CASO II Course takes advanced digital researchers (CASO graduates) and trains them to strategically target big data sets to extract time-sensitive digital artifacts and synthesize streamlined reports across multiple domains. This course empowers end users to become capable analysts with the skills and tools necessary to operate in teams or autonomously in a fast-paced operational environment. Graduates will be able to translate digital environments into production of easily understandable outcomes to aid decision makers.

### Topics include:

- Linking research to TTPs and SOPs
- Developing data streams into tangible information
- Mission-focused situational awareness
- Identifying signals to tip and queue other sensors
- Better informed analysis
- Providing decision makers with risk informed products

### Skills & Outcomes

- Formulating good research foundations through repeatable processes
- Confirming and validating publicly available information (PAI)
- Defining impact for organizational and mission-based results
- Describing the limits of what can be found with publicly available information

## CASO II: Quick Facts:

- 40-hour Training Program.
- Aimed at Analytical Fusion Cell professionals.
- Focused on product development aligned to TTPs and SOPs.
- Ideal for those seeking better quality in analytical products, reports, and Commander's Update Briefings.
- Secure training environment to include managed attribution solutions.
- Outcome-driven workflow integration exercises.
- Combination of individual and team-based learning under supervision of world-class digital research subject matter experts.
- Course discounts available when combined with other TOG offerings.

| • Orientation<br>• Reviewing and Testing CASO Knowledge<br>• Understanding Baselines and Frameworks<br>• Discovery Workflow | • Advanced Search and Discovery<br>• Geolocation and Media Analysis<br>• Developing Personal Workflows | • Open-Source Reporting<br>• Personal Workflow Execution and Review<br>• Data Synthesis and Report Writing | • Reporting Peer Review and Editing<br>• Tool-directed Analysis'<br>• Digital Concepts Integrations | • Communicating and Presenting Insights<br>• Group Research and Product Development<br>• Product Presentations<br>• Graduation |

## Delivery

Parsons TOG offers training online, in person at our facilities in Herndon, VA, and Fayetteville, NC, or on-site through mobile training teams. Our secure virtual platform uses US Government–approved, Tier C–compliant encrypted Office 365 solutions that meet ISO, SOC, HIPAA, and FERPA standards and enforce multi-factor authentication. Our security-cleared instructors can train in any environment that meets required standards, ensuring compliance with your operational security requirements.

## Additional Courses

We offer the following upgrade options:

**Commercial Signature Reduction (CSR)** - advanced commercial best practices for digital data protection techniques to facilitate safe virtual on-line operations.

**Dark Web Immersion** - 5-day course designed to provide a foundational and advanced understanding of how to conduct research on the dark web while maintaining safety and anonymity during online operations.

Additional details for each option provided upon request.
